Re: Transition of the Japanese Journal of Antibiotics (JJA) to electronic format

This is to inform you that we ceased publishing the JJA in printed format in 2020. We will be moving to the electronic format starting with Vol. 74, No. 1, to be published on 25 March 2021.

Recent years have seen mainstream research articles distributed through electronic media, resulting in the rapid digitization of academic journals. We too are aiming to improve user-friendliness by shifting our publication to an electronic journal.

The JJA has a history of 73 years since its inception, and the transition to an electronic journal will not change our well-established tradition. Please also note that the journal in the electronic format is available on the Association's website.

Thank you for your continued understanding and support for our activities.

Sincerely,

JJA Editorial Office
